ENGAGEMENT RING: A RARE AND HYPOALLERGENIC CHOICE FOR US COUPLES.

If you're planning on getting engaged, it's important to do your research. There are so many different choices out there for rings and other jewelry—from traditional diamonds to unconventional designs that are both beautiful and unique. And while some couples prefer the traditional path of engagement ring (i.e., pave settings), others might be looking for something much less conventional or hypoallergenic (i.e., natural). In this article, we'll talk about some of our favorite options for US couples who want something different than what most people think of when they hear "Engagement Rings."

LOOKING FOR A UNIQUE ENGAGEMENT RING?

You should have an idea of the type of stone you'd like in your ring, but don't let anyone else choose it for you! Consider vintage, antique and rustic-inspired designs. Look for unique, unheated stones (i.e., natural or lab-created).

If you want a very natural-looking engagement ring, consider a stone that hasn't been treated in any way. Unheated stones are frequently used in vintage rings and antique jewelry.

If you want a very natural-looking engagement ring, consider a stone that hasn't been treated in any way.

SHOP

CONSIDER VINTAGE, ANTIQUE AND RUSTIC-INSPIRED DESIGNS.

There are many reasons to consider vintage, antique and rustic-inspired engagement rings. These styles are unique and can be found in a wide range of prices, making them an excellent choice for those who want something that looks great but doesn't break the bank.

If you're looking for a unique Wedding Rings with an old-fashioned flair or want something that has been passed down through generations, we recommend shopping at any of our partner retailers below:

This is a list of all the stores that carry vintage engagement rings. If you don't see your favorite retailer on the list, please add them in the comments below!
